

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.
Tradúzcalo o hable con alguien que lo entienda bien.

Daggett Community Services District Has Levels of Perfluorohexane Sulfonic Acid (PFHxS) Above the Response Level

Our water system recently confirmed a detection of PFHxS above the public health-based response level. *PFHxS has been shown to interfere with levels of thyroid hormones. As our customers, you have a right to know what you should do, what happened, and what we are doing to correct this situation.*

We routinely monitor the presence of drinking water contaminants. Water sample results received on 6/12/26 showed PFHxS levels of 25 ng/L. This is above the State Water Board established response level of 10 nanograms per liter. The average result of PFHxS over the past year are 21.5 ng/L.

What should I do?

- **IF YOU ARE PREGNANT OR BREASTFEEDING, DO NOT DRINK THE WATER. DO NOT USE THE WATER TO MAKE INFANT FORMULA.** *Thyroid hormones are needed for normal prenatal growth and development of the fetus, as well as for normal growth and development in the infant and child. In adults, thyroid hormones are needed for normal metabolism and mental function.*
- **DO NOT BOIL THE WATER.** Boiling, freezing, filtering, or letting water stand does not reduce the PFHxS level. We recommend the consumption of an alternative source of water, such as bottled water.
- If you have other health issues concerning the consumption of this water, you may wish to consult your doctor.

What happened? What is being done?

On November 13, 2025, the Provost & Pritchard Administrator Team assumed limited-scope administration of the Daggett Community Services District. The Administrator Team will be assisting in developing a long-term solution for the Daggett community. The Administrator Team has also prepared a Community Accountability and Engagement Plan and is holding quarterly public meetings during the term serving as Administrator.

For more information, please contact Daggett Community Services District at (760) 254-2415.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the Daggett Community Services District.

State Water System ID#: CA3600086. Date distributed: 6/30/2026.
