

## **IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

Este informe contiene información muy importante sobre su agua potable.  
Tradúzcalo o hable con alguien que lo entienda bien.

### **Daggett Community Services District Has Levels of Uranium Above the Drinking Water Standard**

Our water system recently violated a drinking water standard. Although this is not an emergency, as our customers, you have a right to know what you should do, what happened, and what we are doing to correct this situation.

We routinely monitor the presence of drinking water contaminants. Water sample results received on 11/11/2025 showed Uranium levels of 37 pCi/L. This is above the standard, or maximum contaminant level (MCL), of 20 pCi/L. The annual average of Uranium in the water sample results for the past year is 37.3 pCi/L.

#### **What should I do?**

- **You do not need to use an alternative water supply (e.g., bottled water).**
- This is not an immediate risk. If it had been, you would have been notified immediately. However, some people who drink water containing uranium in excess of the MCL over many years may have kidney problems or an increased risk of getting cancer.
- If you have other health issues concerning the consumption of this water, you may wish to consult your doctor.

#### **What happened? What is being done?**

On November 13, 2025, the Provost & Pritchard Administrator Team assumed limited-scope administration of the Daggett Community Services District. The Administrator Team will be assisting in developing a long-term solution for the Daggett community. The Administrator Team has also prepared a Community Accountability and Engagement Plan and is holding quarterly public meetings during the term serving as Administrator.

For more information, please contact Daggett Community Services District at (760) 254-2415.

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.*

## **Secondary Notification Requirements**

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

- **SCHOOLS:** Must notify school employees, students, and parents (if the students are minors).
- **RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS** (including nursing homes and care facilities): Must notify tenants.
- **BUSINESS PROPERTY OWNERS, MANAGERS, OR OPERATORS:** Must notify employees of businesses located on the property.

This notice is being sent to you by Daggett CSD.
